

COMPUTING

About weSystems

As an IT service provider, we are the right partner if you need support in planning, realising and operating IT infrastructures. We focus on providing companies with courage to make a change with the individual planning & operation of the perfect IT solution on a permanent basis. We are large enough to implement complex and demanding projects and small enough to offer the necessary flexibility and agility.

When standard IT is not enough

Whether physical, virtual, or both, our customised computing services make your business more secure, efficient, scalable and economical.

Only what you need: Computing services as individual as you

What you get:

- A computing solution that perfectly fits your business and requirements
- The optimal view due to our clear service portfolio
- Little time required, as no platform expertise is necessary
- Even without IT expertise, you can use secure and economical computing technologies
- Financial planning security through a transparent cost structure
- Reduce your total costs by up to 20 % compared to large cloud providers
- No nasty surprise at the end of the month due to uncertain traffic costs
- Relieve the workload of your colleagues through the addition of our managed services

To which we give you our word:

- We are the flexible & agile partner, the one you were looking for
- Respect & open communication on eye level is particularly important to us
- Do you have special wishes for your IT? We can implement these together with you
- We bring experience and valuable knowledge from projects that have already been successfully implemented
- Do you need support? Our support is always ready to assist you competently
- With our computing services we make your business more efficient and scalable

“ We use the weSystems cloud with GPU support for our high-performance applications in the B2B area and are thrilled with the great service. What we appreciate about weSystems: Flexibility, partnership-based communication and reliability.

Simon Schleifnig, Managing Director, talsand GmbH & Co. KG
